

E2E Pump P-9 Service Manual

Document type: maintenance manual

Language: English

Asset: E2E Pump P-9

Safety

Disconnect power before opening the motor cover.

Troubleshooting

Symptom: Pump does not start

Likely failure mode: blown motor fuse.

Corrective action: replace the 10 A motor fuse and restart the pump.

Symptom: Low discharge pressure

Likely failure mode: clogged inlet filter.

Corrective action: remove the inlet filter, wash it with clean water, reinstall it.

Maintenance Interval

Inspect the inlet filter every 250 operating hours.

Replace the motor fuse only after verifying the supply voltage.
